Education

Bachelor of Science in Electronics Engineering | De La Salle University – Dasmariñas | 2024 – *Present*

- Dean's Lister (A.Y. 2024–2025) | Latest GPA: 3.19

Technical Skills

Electronics Engineering: Circuit Analysis, Electronics Troubleshooting, PCB & Schematic Design, Solar PV Systems, Basic Electrical Installation

Programming Languages: Python, JavaScript, C++, Java, HTML/CSS

Frontend: React, Tailwind, Vercel

Backend: Node.js, TypeScript

Game Development: Ren'Py

AI/ML:

Engineering Softwares: Cisco Packet Tracer, Arduino IDE, NI Multisim, LTspice, MATLAB, EasyEDA, AutoCAD, VS Code

Tools: Git, Github, Figma, Power BI

Experience

Founder of [OneByte](#) and [OneByte Steel Cabinets](#) | 2023 - *Present*

- Founded and managed a steel cabinet dealership and a digital products business.
- Oversee suppliers, inventory, logistics, and customer relations.
- Developed the company website and managed digital marketing initiatives.

Student Assistant | GMD Laboratory, DLSU-D | 7 April 2026 – 30 May 2026

- Managed laboratory inventory and supported daily laboratory operations.

On-the-Job Trainee | Consolidated Viking Tourist Transport Inc. | 19 Jun 2025 – 2 Aug 2025

- Hands-on bus maintenance, mechanical repairs, welding, grinding, and drilling.

ADI Junior Aspirant Trainee | Analog Devices Inc. | Nov 2023 – Dec 2023

- Collaborated with engineers to verify chip functionality, system configurations, and performance.
- Awarded ADI Junior Aspirant Certificate of Completion and Best ADIary Presentation Certificate.

Certifications

- **Cisco:** [C++ Essentials 1](#) & [2](#), [Getting Started with Cisco Packet Tracer](#), [HTML Essentials](#)
- **IANsmart/Solis:** Solar Technical Training
- **TESDA:** [Installing & Configuring Computer Systems](#), [Diesel Engine Tune-Up](#), [Introduction to Computer Systems Servicing](#)

Projects

[OneByte Steel Cabinets](#): Business Website | 2026

- Designed and developed a responsive business website using React, Tailwind CSS, and Vercel.

[UDSpot](#): Blind Corner Vehicle Detection System | Elizabeth Seton School - South | 2024

- Developed an Arduino-based vehicle detection prototype using ultrasonic sensors, Tinkercad, and AutoCAD to improve road safety at blind corners.
